

Eagle eXchangeSM eDepositSM

Streamline Your Deposit Processing

Eagle Bank offers a remote deposit capture solution specifically designed for businesses to help them make deposits conveniently and receive funds faster.

With **Eagle eXchange eDeposit**, you can exchange conventional, manual check deposit processes for an automated deposit solution created to suit your specific needs. Regardless of your size or location, eDeposit allows you to scan any type of check at your business location and electronically deposit it into any one of your Eagle Bank accounts.

Do you have large dollar check deposits?

Great.

Could you benefit from later deposit deadlines?

Perfect.

Do you have multiple locations across a large geographic area?

Ideal.

Using a small desktop scanner, you can capture front and back images of your checks. Next, eDeposit balances and verifies check deposit information to ensure that the scanned amount matches the expected deposit amount. Then, the deposit and check images are transmitted electronically to Eagle Bank for clearing. Sounds easy? That's because it is.

To make eDeposit a key component of your business process, contact Eagle Bank today!

What can **eDeposit** do for you?

- Enable your corporate office to see deposits being submitted from your multiple store locations.
- More processing time combined with extended deposit cutoff times can provide your business with faster funds availability.
- Help your business realize additional working capital.
- Consolidate banking relationships and reduce associated reconciliation work and costs. With eDeposit, no geographic "footprints" exist from banking with us.
- Assist you in identifying return items faster, reducing fraud risk.
- Reduce transportation expenses as most deposits can be made without even leaving the office.
- Allow you to see deposits online using our electronic image archive.
